

Press Service International

Press Service International is a wholly owned subsidiary of Egenolf Industrial Group, Inc. To supplement Egenolf's core business of Rigging and Millwright services, Press Service offers an array of heavy press related services:

- Field Service
- Press Rebuild Service
- Press Inspection Service
- Engineering Service
- Electrical Power and Control Service

Press Service International provides services which complement the rigging and millwright services provided by Egenolf. Not only can we relocate your industrial machinery, but with the services provided by Press Service International, we can provide additional essential maintenance.
